Sir:

In response to the Office Action dated February 6, 2001 please amend the above-
identified application as follows:

IN THE SPECIFICATION:

Please delete the paragraph bridging page 2 and page 3 and replace it with the following
new paragraph:

AI
In the telephone system disclosed in Japanese laid-open patent publication No. 63-78643,
the subscriber terminal has a circuit for deciding whether a dialing signal from the telephone set
represents a final digit of the dialed telephone number, and a means for transmitting dialing
signals which have been generated when keys of the dial pad are pushed, those signals being
transmitted all together.
